

Acme whistles have been made since 1870, and are renowned worldwide.

Thunderer

The famous cork balled whistle with a shrill, reverberating sound. The smaller the whistle the more shrill the tone. **Thunderer** whistles are made of nickel plated brass or solid compression moulded black plastic

- AC58** Brass, nickel plated, standard model, very loud
- AC58.5** Brass, tapered mouthpiece, large size
- AC59.5** Brass, tapered mouthpiece, medium size
- AC60.5** Tapered mouthpiece, small size
- AC558** Plastic, large size
- AC559** Plastic, medium size
- AC560** Plastic, small size
- AC658** Plastic (injection moulded), large size, very light
- AC660** As above, small size
- AC636** Safety whistle, 'Acme Pocket Tornado'
- AC577** Plastic, moulded finger grip
- AC477** Metal finger grip allows a whistle to be safely held over two fingers, freeing the hand

Orchestral Whistles

- AC147** 'Siren'; loud, piercing, but variable sound often used to create wind effects
- AC451** As above, with 7" bellpiece
- AC472** 'Song Whistle' ('Swanee Whistle'). Sliding plunger allows pitch to be varied over 2 octaves
- AC534** 'Triple Tone', sounds like an American locomotive whistle
- AC536.5** As above, with higher pitch; sounds like a tugboat whistle

Metropolitan and Scout

Double tone 'discord' whistles of highest quality brass nickel plate. The 'Scout' whistles differ in being fitted with nickel plated steel split rings.

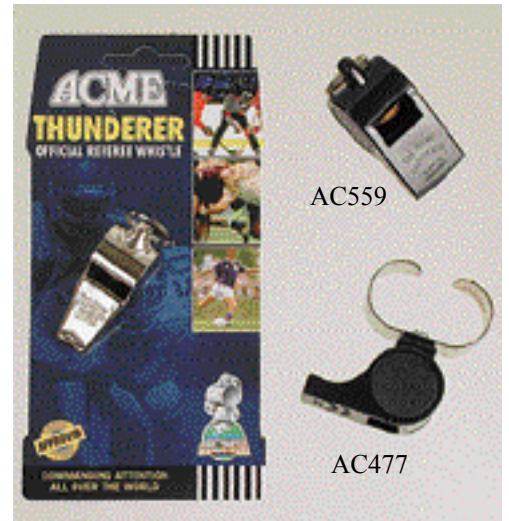

- AC15** 'Metropolitan'; the original police whistle
- AC50** 'Metropolitan'; deeper tone
- AC50.5** 'Scout'; as above
- AC49** 'Metropolitan'; shrill tone
- AC49.5** 'Scout'; as above, with split ring
- AC47** 'Metropolitan'; very shrill tone
- AC47.5** 'Scout'; as above, with split ring
- AC649** 'Metropolitan'; moulded plastic, waterproof, ideal for life-saving. Five colours: black, ivory, blue, red, orange

Reed Horns

These instruments provide penetrating and far reaching sounds, particularly those with longer bellpieces. All are fitted with hand tuned reeds.

- AC171** 6" oval bell, nickel plated brass, 'soft' note
- AC171.5** As above, 'raucous' note
- AC175** 11" oval bell, nickel plated brass, 'soft' note
- AC175.5** As above, 'raucous' note
- AC566** 14 ¾" round bell, durable black plastic, 'raucous' note, reed. Very loud

AC472

Dog Whistles

- AC565** 'Silent' Dog Whistle, adjustable pitch, includes booklet 'How to Train Your Dog'
- AC575** Shepherd Whistle, gives, with practice, a very shrill note
- AC210** Moulded plastic, high pitch, cork ball
- AC210.5** As above, without cork ball
- AC211.5** As above, lower pitch

Special Purpose Whistles

- AC12** Boatswain's call; variable high pitched tone
- AC144** Two tone, large size
- AC143** Two tone, small size

Bird Calls

- AC259** Crow and rook
- AC281** Quail call
- AC446** Cuckoo
- AC499** Nightingale
- AC500** Pigeon and dove
- AC504** Bird warbler, widgeon/rabbit squeal for fox decoy
- AC553** Curlew and peewit
- AC572** Duck, teal and widgeon
