

Schaller Western Pick Ups

For steel strings only. Superb acoustic guitar pick ups, spring loaded for easy soundhole fitting without removing strings. Will fit most soundholes. True acoustic response. Individually adjustable pole pieces and height adjustment for whole pick up. Dual opposing coils, individually shielded to eliminate noise and hum. Black satin finish, attractively presented in circular box

- 5214** Western III, includes 3m cable
- 5209** Western I, as above with volume control
- 53280** Western, fingerboard fitting
- 5210** Western II, as above with volume control and four position switch
