

GUITAR STRINGS FROM SAVAREZ

Corum Strings

Many guitarists seek the quick response and bright sound given by high tension strings but prefer the flexible feel of strings with lower tension. The new **Corum** wound basses from Savarez achieve the best of both worlds. They feel like normal tension with an easy action but have the tonal response of high tension strings. The combination of these bass strings with the **Alliance KF** trebles gives a superb, perfectly balanced set for the modern guitarist.

- M0500AR** Set, Corum, KF trebles
- M0500AJ** Set, Corum, KF trebles, high tension
- M0500ARJ** Set, Corum, normal tension trebles, high tension basses
- M0500PR** Set, Corum, standard nylon trebles
- M0504** D 4th, Corum
- M0505** A 5th, Corum
- M0506** E 6th, Corum

Corum Cristal Strings

Cristal Corum sets feature a combination of **Corum** wound basses and new improved **Cristal nylon trebles**. The result is a great improvement in clarity of sound with more focus and better intonation.

- M0500CR** SET, Corum Cristal Red, normal tension
- M0500CJ** SET, Corum Cristal Blue, high tension
- M0500CRJ** SET, Corum Cristal Red/Blue, normal tension trebles, high tension basses
