

# DOGAL GUITAR STRINGS

## Diamante - Classical Guitar

These strings are hand made by Dogal in Venice. New technology has enabled traditional nylon strings to be strengthened with carbon fibre, producing more brightness of tone and better pitch

**NR127B** Set, regular tension

**NR127C** Set, strong tension

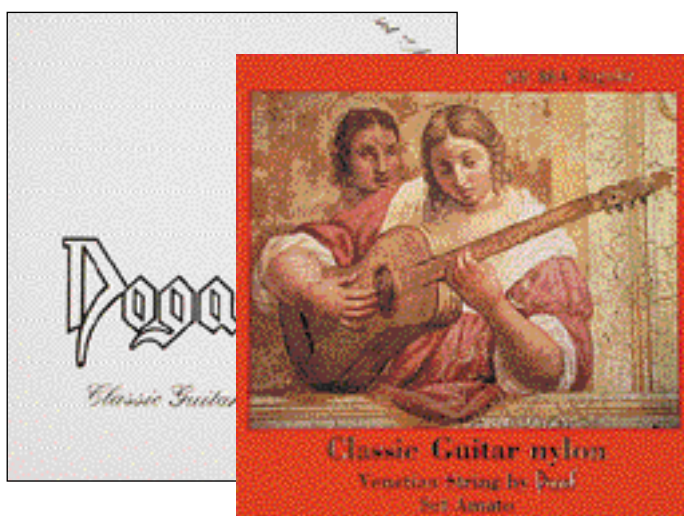

**NR127D** Set, extra strong tension

## Venetian String Series - Classical

Synthetic fibre strings with good sound volume, excellent responsiveness and tuneability. Silver wound G string

**NR88A** Set, regular tension

**NR88B** Set, strong tension

## Electric Guitar Strings

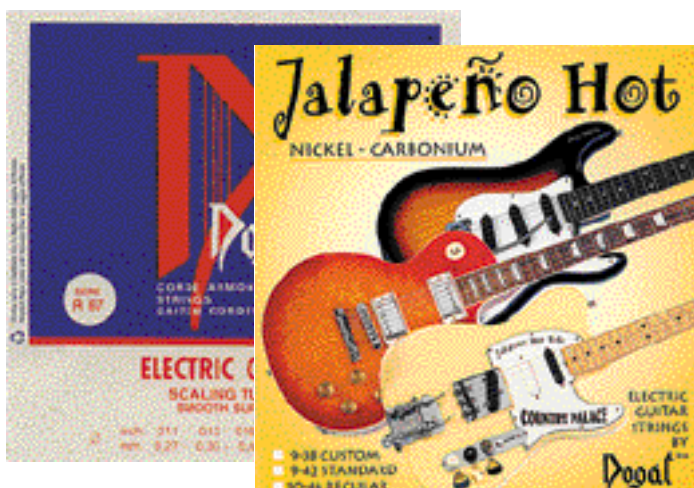

These guitar strings feature a lining of rolled chrome metal, flat wound, giving a smoother surface and longer life

**R67A** Set, extra light tension, 008 - 040

**R67B** Set, light tension, 009 - 040

**R67C** Set, regular tension, 010 - 040

**R67** Set, strong tension, 011 - 046

'Stentor' is the registered trademark of STENTOR MUSIC CO. LTD.

## Carbon Steel Series - Electric & Bass

For those who prefer a 'warmer' tone. These strings feature carbon alloy winding, allowing better pitch to be achieved with less tension and more sound volume with a smaller diameter. Testing has shown that a 038-086 gauge in 'Carbon Steel' produces the same volume as a traditional 040-100 gauge

**RW87** Set, light tension

**RW87A** Set, regular tension

**RW87AB** Set, medium tension

**RW87B** Set, strong tension

**RW87E** Set, 7 string

**CS90A** Bass set, long scale, 125cm  
030 - 085

**CS90** As above: 038 - 086

**CS90B** As above: 040, 060, 075, 098

**CS90D** As above: 040, 065, 080, 098

**CS90C** As above: 045 - 105

**CS906030** As above, 6 string: 030 - 110

## Chrome Steel Series - Electric

Ideal for 'heavy metal' and similar types of music. The use of chrome steel offers a high degree of harmonics which allows for more distortion effects.

**RW126D** Set, light tension

**RW126** Set, regular tension

**RW126A** Set, medium tension

**RW126E** Set, 7 string

## Jalapeño Hot Series - Electric

Ideal for bending techniques, these strings have a unique flexibility, due to their strong round core

**WB05** Set, custom, 009 - 038

**WB05A** Set, standard, 009 - 042

**WB05B** Set, regular, 010 - 046
