

## Reeds Australia

**Reeds Australia** offers a fresh source of professional standard reeds. Their reeds are proven to be long lasting, with far richer tonal characteristics and more useable reeds per box than is generally found.

Several large plantations in Australia provide sufficient harvests for the selection and rigorous standards required. Reeds are made using state of the art manufacturing techniques and randomly batch tested by accomplished players specially trained for this important aspect of quality control and quality assurance.

All cane is sun cured and seasoned for at least two years. No chemicals are used during cultivation or manufacture.

**Vintage:** 2, 2½, 3, 3½, 4 (5 to order)  
premium hand finished reeds made from the very best aged cane. Each box of Vintage reeds displays the year of harvest

**Vintage XL:** 2, 3, 3½, 4  
premium clarinet reeds cut from extra thick blanks, with a deep heart - for experienced players

**Studio Plus:** 1½, 2, 2½, 3, 3½, 4  
Hand selected reeds with a lighter, more free-blowing cut, ideal for students

**File Cut:** 'File Cut' involves removing the bark straight across the shoulder of the reed, just above the scrape of the blade, releasing some of the back pressure. Feature available on Vintage and Vintage XL reeds

**Alan Hacker** (Eminent British Clarinetist and Conductor)  
*"The most extraordinary thing about Vintage reeds are their consistency, the number of good reeds I find in a box (8 or 9/10 on first playing!), and above all their extreme longevity."*
