

Hand made in the Stentor factory workshop, the Stentor Student II is a higher grade instrument made from selected tonewoods. The quality of the carving and expert workmanship produces a student cello far superior to other student instruments produced in China.

Teachers in Britain and in Europe demand a high standard of instrument. The Stentor Student II cello outfit meets these standards and is now the first choice of most teachers.

Cello

- ◆ Solid carved spruce table
- ◆ Solid carved maple back, neck & ribs
- ◆ Natural glues used throughout
